

THE SOCIAL WORK TECHNICIAN (The Hub)

Mrs Amy Lavallée is assigned to the Hub, a service targeting at-risk students. Its goal is to prevent issues and problems from deteriorating by giving designated students access to a place with trained personnel who are available to guide them through a self-regulation and problem solving process.

The Hub is used differently with each student. Some are assigned during unstructured periods as a way of preventing issues from occurring. Others are asked to touch base with Hub personnel at designated times in order to develop their ability to self-monitor and self-regulate. Finally, some have access during class time in order to de-escalate a situation.
