

THE RE-ADAPTATION OFFICER

Mrs. Tracy Lynch is one of the school's Re-adaptation Officers and part of the Student Service Crisis Response Team.

She evaluates and intervenes with individuals and groups who have a variety of adjustment disorders or who are at risk. More specifically, she offers services to individuals experiencing emotional, cognitive, physical, social and behavioral difficulties.

Re-adaptation Officers work with the individuals themselves as well as those who live and work with them. They believe that the best setting for helping people with adjustment disorders, or who are at risk, is in their natural environment. They therefore offer them concrete strategies and tools to help them adjust.
