

THE RE-ADAPTATION OFFICER

Mrs. Valerie Huot is one of the school's readaptation officers.

With an expertise in addiction intervention and mental health, she evaluates and intervenes with students and groups who have a variety of adjustment disorders or who are at risk. More specifically, she offers services to students experiencing emotional, cognitive, physical, social, and behavioral difficulties.

Readaptation officers work with the students individually and with those who live and work with them. Therefore, they offer concrete strategies and tools to help the youths better adjust and succeed not only in school, but also in their personal lives.
